MRA INTERNATIONAL & VERKADA INVITES YOU TO AN INTRODUCTION DEMO WEBINAR

As you may be working from home amidst this COVID-19 situation, I thought you might be interested in checking out the latest revolution in video security making waves all over NJ - Verkada via Zoom. Not sure if this is a current initiative but it is definitely worth looking into as it is a modern solution that is eliminating the need for NVRs/DVRs.

Here is a 3-min demo demo that will give you a glimpse of a security solution that requires no NVRs/DVRs/servers and offers continually improving AI functionality including people analytics. I'm including Soa Cho in this note who can walk you through a full 20-minute demo and send you a free YETI Tumbler for your time.
